SAFETY PRECAUTIONS

Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury.

| | |
|---|--|
|  | <i>Do not use wireless phones while driving.</i> |
|  | <i>Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.</i> |
|  | <i>Do not use mobile phones where blasting is in progress. Follow any regulations and rules strictly.</i> |
|  | <i>Do not use mobile phones at Petrol stations. Don't use near fuel or chemicals. Do not dispose your battery or mobile in a fire.</i> |
|  | <i>Follow any regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.</i> |
|  | <i>All wireless devices may get interference that could affect performance.</i> |
|  | <i>The repair or installation of the device should be done at Authorized service centers</i> |
|  | <i>Use only approved accessories and batteries.</i> |

| | |
|---|--|
|  | <p><i>Use only in normal position. Do not expose your phone to extreme high temperatures above +60°C (+140°F). Do not use anything static to clean your phone.</i></p> |
|  | <p><i>Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.</i></p> |

Improper use will invalidate the warranty! These safety instructions also apply to original accessories.

Antenna

Use of other antenna devices could damage your mobile phone and reduce performance. Your phone has a built-in antenna. Don't touch the antenna area unnecessarily when the phone is switched on. Contact with the antenna affects call quality and may cause the phone to operate at a higher power level than otherwise needed.

Network Service

A lot of features described in this manual are called network service. They are special services provided by wireless service providers. You should subscribe to these services from your home service provider and learn instructions on uses before you select the network you want to use.

Accessories

Li-Ion battery is the manufacturer-approved rechargeable battery available for your phone. May be some batteries performs best after several full charge/discharge cycles.

Use batteries, chargers and accessories approved by the phone manufacturer with this particular model. The use of any other types will invalidate any approval or warranty applying to the phone, and may be dangerous.

Please consult with your dealer for availability of approved accessories.

STATUS ICONS

The table below lists various icons that might appear on the status bar while using the phone. Apart from the icons for signal strength level and the power, other icons are displayed as per the current mode and priority of the phone.

| Icon | Description |
|---|--|
|  | <i>Indicates the network signal strength.</i> |
|  | <i>Indicates the current battery capacity.</i> |
|  | <i>Indicates that there is an unread message.</i> |
|  | <i>Indicates that there is a missed call.</i> |
|  | <i>Indicates that the current Sound Status is the Ring only.</i> |
|  | <i>Indicates that the current Sound Status is the Vibrate then Ring.</i> |
|  | <i>Indicates that the current Sound Status is the Vibrate and Ring.</i> |
|  | <i>Indicates that the current Sound Status is the Vibrate only.</i> |
|  | <i>Indicates that the current Sound Status is the Silent mode.</i> |
|  | <i>Indicates that the current profile mode is the Headset mode.</i> |
|  | <i>Indicates that the current alarm clock is set as activated.</i> |
|  | <i>Indicates the current keypad-locked state.</i> |
|  | <i>Indicates that the Bluetooth is turn on.</i> |

Note: The picture is for reference only; the product is subject to the

real one.

SMART TOUCH SCREEN

The phone features a full touch, 8.11 cm wide screen with idle display and access to utilities on just one-touch. So swipe right or left to navigate through various screens accessing your favorite features without entering the main menu.

The first row known as the status bar displays various icons, including signal strength, battery, time and profile mode.

GETTING STARTED

Please switch off your phone before inserting or removing the battery/SIM card or memory card.

Installing SIM Card and Battery

Your phone is provided with two SIM slots for two different SIM cards. The SIM card inserted in the slot is called SIM.

- *Hold the phone with the back upwards: Eject the battery cover from the left side of the camera.*
- *Remove the back cover of the phone.*
- *Insert the SIM cards in the slots.*
- *Attach the battery.*
- *Push the battery cover until it clicks into place.*

Installing Memory Card

The phone supports T-Flash card, which is a multimedia memory card used to multiply the memory of the phone. The T-flash card is small and should be pulled out /installed carefully and prudently in order to avoid any kind of damage.

- *Switch off your phone.*
- *Remove the battery cover.*
- *Slide the T-Flash card into the slot.*
- *Attach the battery.*

- *Push the battery cover until it clicks into place.*

Charging the Battery

The phone prompts a warning tone and message stating insufficient battery when the power of your phone is low. Please follow the instructions mentioned below to charge your phone:

- *Plug the connector of the charger into the jack of the phone.*
- *Plug the charger into a standard AC wall outlet.*

Note:

When  is shown on the screen, it indicates that there is not enough power and you should now charge your phone. When charging is complete, the battery icon will stop flashing.

Charging.....  Fully Charged..... 

You must fully charge the battery before using the phone for the first time. It is recommended to charge the battery for four hours before using the phone for the first time.

If the phone is turned on during charging, you can still make or answer calls, but this will consume battery power, thus will extend the charging time of the phone.

Switch On/Off the Phone

To turn on/off the phone, press and hold the Power Key. If you have

enabled the SIM Lock function then enter the PIN code (the 4 to 8 digits secret code of your SIM card). It is preconfigured and provided to you by your network operator or retailer. If you enter an incorrect PIN code 3 times in succession, your SIM card will be locked. To unlock it, you must obtain a code from your network operator.

Automatic Customer Registration

After 4 hours of usage a SMS from the phone will be sent automatically for the customer registration.

Note: standard SMS charges apply.

BASIC OPERATIONS

Make Calls

If the icon  appears on the screen, then you can make or receive calls.

- In the standby mode, tap **Dialer** , enter the desired phone number (should affix the international/ national/ regional code or district code if necessary) and then tap  to make a call.
- In the standby mode, tap **Phonebook** , use the scroll bar to select the desired contact or enter the initials of the name to be searched and then tap  to make a call.

To Dial International Number

The phone supports dialing the international emergency phone number. Using your handset, you can dial an emergency call in any country or region under the normal situation regardless of SIM card inserted when the phone is located within the coverage of the GSM network.

Input the emergency phone number and tap  to dial.

- In the idle mode, tap the * twice to prefix the international symbol +.
- Enter the country code, area code and phone number.
- Tap  to make an International call.

The phone will select the main network automatically after powered on if it is located within the coverage of the main network.

The phone can use other network, called as roaming, if the phone is not located within the coverage of the main network when the network operator protocol permits.

Clear Wrong Enters

If you tap a wrong number, tap Clear to erase the wrong number.

Adjusting the Sound Volume

During a call, you can press the Side Key to adjust the earpiece volume.

Answer/Reject an Incoming Call

- *To answer an incoming call, tap the (). You can use the earphone to answer the call when the generic earphone is inserted in the phone.*
- *To end or reject an incoming/ongoing call, tap the ().*
End-call).

Options During A Call

Your phone provides a number of functions that you can use during a call.

MAIN MENU

Menu guides you to the various features, applications and services available in your phone. Tap **Menu** access to the Main Menu.
