Model W156N Page 17

User's Guide

please use the personal hands-free Kit.

- Please do not put the phone onto any passenger seat or any place from which it may fall down in case of vehicular collision or emergency braking.

During Flight

- Flight is influenced by interference caused by the phone. It is illegal to use a phone on the airplane. Please turn off your phone during a flight.

In Hospitals

- Your Phone's radio waves may interfere with the functioning of inadequately shielded medical devices. Consult a physician or the manufacturer of the medical device to determine whether they are adequately shielded from external Radio Frequency. Switch off your device when regulations posted instruct you to do so.
- To avoid potential interference with implanted medical devices such as a pacemaker or cardioverter defibrillator:
- Always keep your phone at least 15.3 centimeters (6 inches) from the medical device.
- Do not carry the wireless device in a breast pocket.
- Turn off the phone if there is any reason to suspect that interference is taking place.
- Follow the manufacturer directions for the implanted medical device.
- If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

User's Guide

Unsafe Areas

- Please turn off your phone when you are close to a gas station or in the vicinity of any place where fuel and chemical preparations, or any other dangerous goods are stored.

10 Taking Care of Your Device

Your device is a product of superior design and craftsmanship and should be handled with care: The following suggestions will help you protect your phone:

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will rust electronic circuits. If your device does get wet, remove the battery without turning on the device, wipe it with a dry cloth and take it the service center.
- Do not store the device in high or cold temperature. High temperatures can shorten the life of electronic devices and damage batteries.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
- Do not attempt to open the device other than as instructed in this guide. Repairing this phone by yourself other than our authorized service agents/centers goes against the warranty rules.
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.

9 Health and Safety Precautions

Please read these simple guidelines. Not following them may be dangerous or illegal.

Model W156N Page 19

User's Guide

- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.
- Do not store your device near magnetic fields or allow your device to come in contact with magnetic fields for extended period of time.

Battery Recommendations:

- Please put the battery in a cool and well-ventilated place out of direct sunlight. We recommend you to charge the battery at room temperature range.
- Batteries have life cycles. If the time that the battery powers equipment becomes much shorter than usual, the battery life is at an end. Replace the battery with a new battery of the same make and specification.
- Do not discard the battery with household trash. Please dispose of used battery according to your local environmental laws and guidelines.
- Use manufacturer approved batteries, chargers, accessories and supplies. Wynncom will not be held responsible for user's safety when using unapproved accessories or supplies.

Model W156N Page 23

User's Guide

The Company's Limited Warranty extends only to the original purchaser/ end user of the Product, and is not assignable or transferable to a subsequent purchaser/ end user

Provisions and Exclusions

This Limited Warranty does not cover a) normal wear and tear; b) defects caused by improper handling; c) defects or damages caused by misuse of the Product, including use that is contrary to the instructions provided by the Company set out in the Product's User's Manual; and/or d) other acts beyond the reasonable control of the Company (including but not limited to Force Majeure, Lightning, Voltage surge, etc.)

During the warranty period, the Company or its Authorized Care Centre may repair or replace at its sole discretion, any defective Product(s) or part(s) thereof with new or factory rebuilt/ re-conditioned item(s) and return the Product to the purchaser in working condition. All replaced part(s)/ item(s) shall become the property of the Company.

The repaired or replaced part(s) or item(s) shall stand warranted only for the remaining warranty period since the date of purchase. The warranty shall cease to exist in the absence of the original proof of purchase, or in case the original serial number/ IMEI is removed, modified or obliterated, or if the Product is damaged due to liquid spillage, exposure to moisture, exposure to extreme thermal or environmental conditions, or if there is a physical damage to the Product, or if the Product was found tampered/ found opened, modified or repaired by anyone other than the Company's Authorized Care Centre.

The warranty terms are subject to change without prior notice. Except for any liability that cannot be excluded by law, the Company (including its related entities and their respective officers, employees and agents)

Model W156N Page 27

User's Guide

SAR Compliance

- Your phone is designed not to exceed the limits of emission of radio waves recommended by international guidelines.
- SAR (specific absorption rate) is the measurement of body-absorbed RF quantity when the phone is in use. SAR value is ascertained according to the highest RF level generated during laboratory tests.
- The SAR value of the phone may depend on factors such as proximity to the network tower, use of accessories or other accessories.
- The highest SAR value of the W156N at the head is **1.096 W/kg** averaged over 1 gm of human tissue.

SAR Recommendations

- Use a wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Please keep your calls short and use SMS whenever more convenient. This advice applies especially to children, adolescents and pregnant women
- Prefer to use your cell phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 15 cm away from the implant.
- Maintain a preferable distance of 15 mm from the device.

Safe Driving

- Do not use the phone while driving. When you have to use the phone,
